EDMONTON 7, ALBERTA

JANUARY 21, 1971

Mr. Domecki

BOARD OF GOVERNORS APPOINTMENT

MICHAEL A. DOMECKI, President of Concord Engineering Ltd. of Edmonton, has been appointed to the Board of Governors of The University of Alberta. He was appointed by Order in Council to fill the balance of the term of R. K. BANISTER who resigned in September. The term extends until June 1973.

Born in Poland, Mr. Domecki received his Bachelor's degree and his Master of Civil Engineering at the Technical University of Warsaw. After graduation he worked in bridge, railroad, and defence works. He served as technical instructor with the British Army of the Rhine for two years. In 1948 he immigrated into Canada where he became actively involved in the construction industry.

Mr. Domecki served for five years on the Board of Directors of BACM industries. Since 1965 he has been President of Concord Engineering which is engaged in the development of coal mining properties.

CAMPUS SECURITY FORCE

D. G. TYNDALL, Vice-President (Finance and Administration), issued a statement to the press Thursday, because "considerable misunderstanding has resulted" from numerous observations in the press about the Campus Security Force.

Dr. Tyndall said certain statements appearing in the press and on the air that members of the Campus Security Force have been instructed to ignore drug offences and liquor offences on campus are completely incorrect.

He explained that Campus Security Force members are instructed to report any suspected offences and that the University will

then take appropriate action in the light of all the circumstances. This action could include requesting assistance from the Edmonton City Police and advising the Royal Canadian Mounted Police.

He emphasized that the University is not a haven for those who break the law but that the needs of the University may, under certain circumstances, require methods of law enforcement which differ from those suitable in other areas of the city and province.

In the matter of drug offences, the University believes that the RCMP—which is especially trained and equipped to handle investigations in this area—is the appropriate body to handle the enforcement of the laws relating to narcotics.

Dr. Tyndall said that certain members of the Campus Security Force felt they could not work within the Force regulations regarding such matters. They felt that they should have broader discretionary powers of arrest. When the men stated that they could not work within the University's regulations, the Director of Campus Security requested their resignations.

Dr. Tyndall said that the cases of these men are now under review and that he is not prepared to comment on individual cases or on the men as individuals until the matter has been reviewed and decisions reached as to what action should be taken.

COMMUNICATE '71

A conference on educational communications will take place in Edmonton, June 27 to July 1, 1971. The three sponsoring organizations are EMAC (Educational Media Association of Canada), ETRAC (Educational Television and Radio Association of Canada) and CSFA (Canadian Scientific Film Association). These three organizations will hold joint sessions and small group workshops, led by experts from various countries.

EMAC, organized four years ago, represents audio-visual administrators and co-ordinators from every province. PAUL GREENOUGH of the University of Saskatchewan, Saskatoon, is the President. ETRAC is a professional organization formed in 1968 to serve the needs of Canadian educational broadcasters at all levels of education, and includes those who are involved in closed circuit or open broadcast with VHF or UHF facilities. President is NEIL MCLEAN, executive director

of the Metropolitan Educational Television Association, Toronto. CSFA, which was formed three years ago, involves science teachers and researchers who use and produce scientific film. JACQUES PARENT of Montreal is President.

Sessions will be held for media instructors, school trustees, administrators, broadcasters, cablecasters, teachers from the primary level to post-secondary, and for those involved in adult education. For information, contact MRS. ELLEN WATT, Audio Visual Services Branch, Department of Education, 506 IBM Building, Edmonton, telephone 429-7156.

GRANT FOR LIBRARY SCHOOL

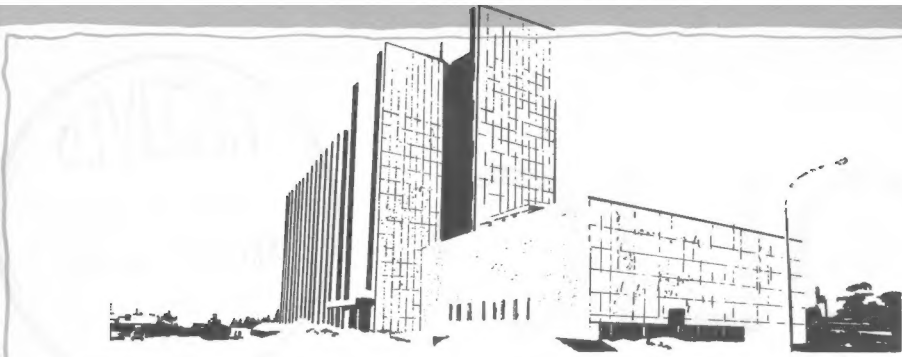

The School of Library Science has been chosen as a recipient of a \$2,000 Wilson Scholarship Grant presented by the H. W. Wilson Foundation Inc., of New York. The grants are presented each year to selected library schools accredited by the American Library Association and are to be used "in such a manner as to further recruitment for librarianship."

PEOPLE

■ GRANT L. FISHER, Associate Professor of Educational Administration, and WERNER SCHMIDT, a doctoral candidate in that department, were consultants at a recent meeting of an advisory committee to the Medicine Hat College Board. Dr. Fisher and a number of graduate students are working with the Medicine Hat College to identify the community service needs of the region and assist in the development of a comprehensive community service program. This is one of several studies being undertaken as part of the Kellogg funded College Administration Project.

■ On January 7, VIOLET ARCHER's new *Sinfonia* was given its radio premiere by the Winnipeg Symphony Orchestra, conducted by ERIC WILD. It was broadcast on the national network of the Canadian Broadcasting Corporation from Winnipeg.

■ Three members of the Department of Biochemistry have been invited to participate in a Symposium on Nucleic Acid Structure and Function to be held at the Banff School of Fine Arts from (continued on page three)

Listings must reach the Editor by 9 a.m. the Friday prior to publication. Written notification is preferred. Compiled by NORMA GUTTERIDGE, 432-4991.

What looks like a port-hole peek onto the deck of an ocean-liner is nothing so exotic. It is merely a glassy perspective of the Central Academic Building. The main floor is a passageway from the Engineering Building to the Chemistry Building and Cameron Library, and above are classrooms and offices. The tiled expanse at bottom represents the solution to crowded cafeterias in SUB. The new eating facilities, when opened, will serve 600.

(From page one) February 28 to March 4, 1971. They are A. RICHARD MORGAN, Associate Professor, who will present a paper; and WILLIAM PARANCHYCH, Associate Professor, and VERNER PAETKAU, Assistant Professor, who will be chairmen. This is the first symposium of the Pan-American Association of Biochemical Societies, and is sponsored jointly by the Canadian Biochemical Society and the Chemical Institute of Canada.

■ Nineteen members of the Department of Surgery will be making contributions to the annual meeting of the Royal College of Physicians and Surgeons of Canada. They are: *permanent teaching staff:* C. M. COUVES, G. F. BONDAR, O. G. THURSTON, A. B. MC CARTEN, K. PRASAD (of the Department of Pharmacology), J. C. CALLAGHAN, L. P. STERNS and H. T. G. WILLIAMS; *resident trainees:* D. W. JIRSCH, R. FISK, E. WEINS, M. WEISLER

BOOKS

EBERHARD DEMM, a Post-Doctoral Fellow in the Department of History, has had published by Mathieson-Verlag Hamburg and Luebeck, his book *Reformmoenchstum und Slawenmission im 12. Jahrhundert*: (English title: *Monastic Reform and the Conversion of the Slavs in the 12th Century*) Historische Studien Bd. 419.

NOTICES

STUDENT REPRESENTATION

At a special meeting of General Faculties Council on February 3, the sole item on the agenda will be the Report on Increased Student Representation. The majority report of the Ad Hoc Committee on Student Representation on the General Faculties Council, and a minority report by D. T. ANDERSON, were published in full in FOLIO, volume seven, number twenty-four, December 3, 1970. Copies are available from the Publications Office.

The meeting will be held in the Council Chamber of University Hall at 2 p.m.

BOREAL INSTITUTE LIBRARY

Commencing immediately and for the remainder of the winter term, the Boreal Institute Library will be open from 8 a.m. to

8 p.m. Monday through Friday. The Library is in Room CW 401, Biological Sciences Centre, and it is hoped that the extension in hours will prove helpful to those who wish to use it.

SILKSCREEN PRINT EXHIBITION

ROGER SILVESTER, Associate Professor of Art, is exhibiting his series, "The Song of Solomon," consisting of 15 silkscreen prints, in the staff lounge on the tenth floor of the Education Building. Works are available for purchase. For further information, call the artist at home, telephone 433-4017, or at his office, 432-4005.
